Eduardo Luis Canedo, hereinafter called LICENSOR, is the developer and sole owner of the Twin Screw Extruder Simulator (TXS™) software package, hereinafter called the SOFTWARE. The SOFTWARE may be provided with additional hardware or software components and documentation in printed and/or electronic form, hereinafter called RELATED MATERIALS. Any additional materials related to the SOFTWARE, including but not limited to hardware protection keys, software updates, fixes, and maintenance releases, additional or substitute documentation, provided at or after the date of acceptance of this license, and not covered by specific license or agreement, are and will be considered as RELATED MATERIALS, and expressly covered by the terms and conditions of this agreement. This agreement grants you, hereinafter called LICENSEE, certain limited rights to use the SOFTWARE under the terms and conditions of this agreement. LICENSOR reserves all rights not expressly granted to LICENSEE and retains title and ownership to all the SOFTWARE, SOFTWARE COPIES and RELATED MATERIALS. In addition, LICENSEE agrees to use reasonable efforts to protect the SOFTWARE, SOFTWARE COPIES and RELATED MATERIALS from unauthorized use, reproduction, distribution, or publication.

- 1. License.** This License grants you the right to use one copy of the SOFTWARE on a single computer at a time. You may install this software in a compatible network server and/or in several computers as long as: (a) all computers or networked terminals that can access the SOFTWARE are in the same location (in a building or complex of buildings belonging or leased by the LICENSEE and located in the same city or town), and (b) the SOFTWARE is access by only one user at time. LICENSEE may not lease or share the SOFTWARE with independent contractors or third parties. LICENSEE may make one (1) copy of the SOFTWARE solely for backup purposes. As an express condition of this license, LICENSEE must reproduce on this copy the copyright notice that is in the label of the original copy. Some RELATED MATERIALS are the property of third parties and are passed to you based on distribution licenses granted to the LICENSOR by the owners of these components.
- 2. Use Restrictions.** This SOFTWARE contains confidential information. LICENSEE may NOT:
 - a) reverse engineer, decompile, disassemble, adapt, translate, modify or create any derivative works based on the SOFTWARE, RELATED MATERIALS, or any part thereof;
 - b) sell, rent, assign, lease, loan, sub-license, distribute or otherwise transfer the SOFTWARE, SOFTWARE COPIES and RELATED MATERIALS, or Licensee's rights under this Agreement to any third party;
 - c) remove, alter or obscure copyright and trademark notices on the SOFTWARE, SOFTWARE COPIES (if any) and RELATED MATERIALS.
- 3. Termination.** This license is effective until terminated. This License will terminate immediately without notice if you fail to comply with any provision of this License. Upon termination, LICENSEE must destroy the SOFTWARE, SOFTWARE COPIES (if any) and RELATED MATERIALS. Sections 4, 5, and 6 should survive any termination.
- 4. Limited Warranty.** LICENSOR warrants that the disk(s) on which the SOFTWARE is recorded is (are) free from defects in materials and workmanship under normal use for a period of thirty (30) days from the date of delivery. LICENSOR's entire liability and LICENSEE's sole and exclusive remedy for any breach of this limited warranty will be the replacement of disk(s) by LICENSOR upon request by LICENSEE during the warranty period.
- 5. Disclaimer of other warranty and liability.** The SOFTWARE and RELATED MATERIALS are provided on an "as is" basis. LICENSOR makes no other warranty, expressed or implied, to LICENSEE or any other person or entity. Specifically, LICENSOR makes no warranty that the SOFTWARE and RELATED MATERIALS are fit to any particular purpose. Any implied warranty of merchantability is limited to the period of time and to the terms expressly set forth in item 4 of this agreement, and is otherwise expressly and explicitly disclaimed. LICENSOR makes no representations regarding the use or the results of the use of the SOFTWARE and RELATED

MATERIALS in terms of correctness, accuracy, reliability, or otherwise. It is expressly understood and agreed that LICENSEE assumes the risks as to the results and performance of the SOFTWARE. It is further expressly understood and agreed that LICENSOR shall not be liable for any special, incidental, consequential, indirect or other damages even if LICENSOR, or his agent(s), have been advised of the possibility of such damage. This means that LICENSOR is not responsible or liable for damages or cost incurred as a result of loss of time, loss of data, loss of profits or revenue, or loss of use of the SOFTWARE. It is also understood and agreed that LICENSOR shall not be liable for any damages or losses due to equipment designed or modified using the SOFTWARE or other similar damages, even if LICENSOR or his agent(s), have been advised of the possibility of such damage. LICENSOR is not responsible or liable for costs incurred in connection with obtaining substitute software, claims by others, inconvenience, or similar costs. In no event LICENSOR liability exceed the price paid by the LICENSEE to use the SOFTWARE, regardless of the claim.

6. **Enforceability.** This agreement shall be interpreted in accordance with the laws of the State of Connecticut. If any provision of this agreement shall be deemed to be unlawful, void, or for any reason unenforceable, it shall in no way affect the validity or enforceability of the remaining provisions of the agreement.
